

Established in 1898, **h.g.brunner** is both a specialist distributor of high quality precision components and mechatronic assemblies to the instrumentation and scientific sectors, as well as acting as a manufacturer's agent providing marketing, sales and engineering support for a number of leading global suppliers.

h.g.brunner specialises in the supply of precision components to a wide range of industries. Our largest customer base is the automotive industry, to which we supply dashboard instrument parts and we continue to enjoy a significant market presence.

We also supply a number of key manufacturers in the marine instrumentation, pressure gauge, aerospace and medical sectors.

Quality Assurance

h.g.brunner is accredited to ISO 9001:2008 and we have actively assisted a number of our manufacturing Principals in attaining quality accreditations, such as ISO/TS16949, ISO/QS9001, ISO 14001 and Ford Q1.

Emerging Market Contacts

Our parent company, **autotec marketing**, operates offices in both Eastern Europe (Hungary) and in the Far East (China) enabling us to source products competitively.

With staff based locally and able to converse fluently in local languages, we are able to conduct 'on-site' supplier surveys, negotiate with the potential suppliers, and assist with on-site issues.
